DIGITAL PRINTING SYSTEM MANUFACTURER

TX-2012

12 HEADS INDUSTRIAL SPEED
SUBLIMATION PRINTER

T
A

SPECIFICATIONS:
TX-2012 for EPSON i3200-A1

Model	TX-2012
Printhead / Quantity	EPSON i3200-A1 / 12 pcs
Ink / Colors	Sublimation ink / 4 - 8 colors
Material Max/print width.	2.05 / 2.0 m
Print modes.	1/2 pass
Print speeds.	265sqm/h to 530sqm/s
Drying system	Double row fan & infrared lamps
Feeding & take-up system	Double inflatable take-up & feeding system
Material / Maximum length	Sublimation transfer paper / 3,000m
File format	PSD/ DWG/ HPG/ HGL/ PLT/ EPS / PDF
Print process	Print from control software after RIP
Cleaning system	Automatic lift type
Interface	LAN
Software	SAiFlexi
Machine sizes / Weight	W 3.62m x L 1.35m x H 1.55m/ 1200kg

PRINT SPEEDS
EPSON i3200-A1

PASS	12 HEAD
1 pass	530sqm/h
2 pass	265sqm/h

USB3.0+2.5G Optical fiber data transfer
Ensure high speed & quality printing

Supports 3,000m media roll

2M Printing width for more applications

**BUILT WITH
THE BEST PARTS**

Motors

Long belt

Control boards

Printheads

Bearings

Guide rail

Power supply

CHARACTERISTICS:

1 Japanese THK 2.0 silent double guide rail, with high precision, long service life, not easy to deform and low noise advantages, ensuring the carriage high speed and stable running

2 Smart double infrared system to ensure a proper material drying.

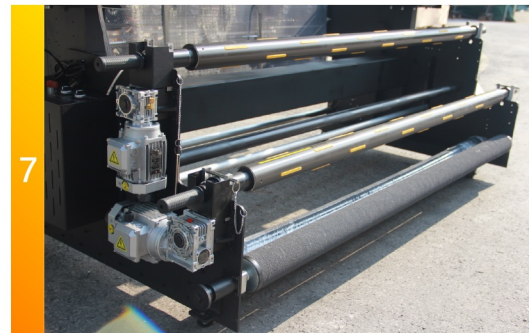

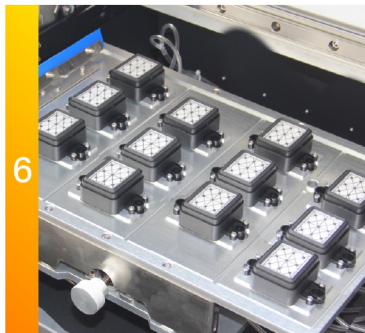

3 Aluminium cross beam with double Taiwan high quality mute guide rail for an excellent printing performance.

4 Professional inflatable grip tubes for a stable material carrying.

5 Triple wheel pinch roller to ensure a smoothly material transportation.

6 Aluminum made printhead carriage and calibration system for a precise physical printhead adjustment and long lasting setup.

6 Steel made fuselage equipped with double inflatable tubes and speed reducers able to carry heavy media weight such as a 3,000m length paper roll.
